

Office of Cannabis Management

Queue 4: Distributor Adult-Use Applications

October 4, 2023 – December 18, 2023 Application Window

The queue below was created using a random sequence process for all distributor applicants that applied in the application window ending on December 18 2023 at 5:00PM. A single queue was created providing the Office with the order in which to review Adult-Use applications. The random queuing process was audited by an independent third-party to ensure it was random and unbiased.

IMPORTANT: The queue order **solely** determines the order in which the Office will begin the review of each application. The order does **not** indicate the order in which licenses will be issued. Each application is different, and the length of the review time will vary from application to application. Inclusion on this list is **not** a guarantee of licensure and is **not** an indication of sufficient eligibility for a license. The Office will be reviewing applications on the queue for all aspects of license eligibility including, violations of ownership requirements and participation in illicit market activity during application review. Please monitor the contact email used on the application, to ensure you are receiving and responding to any messages from the Office regarding your application.

Notes:

*Extra Priority Social and Economic Equity applicants for distributor licenses received three chances in the queue.

**Adult-Use Conditional Cultivator and Processor applicants applying for the distributor license as part of their transition are guaranteed to have their application reviewed and were not in the queue.

***The queue does not include applications that have been administratively closed, withdrawn, voided, removed due to certain True Party of Interest violations or removed due to technical issues. In total, 288 applications are included on the final queue.

****The Office reserves the right to correct any technical issues the Office discovers with the queue, after the date of this posting.
