

To: All New York State Adult-Use Licensees
From: NYS Office of Cannabis Management
Date: September 22, 2025
Subject: **Seed-to-Sale System Update: Metrc Rollout Timeline & Resources**

Good afternoon,

The Office is targeting **full integration of all licensees in the Metrc system by the end of December 2025.**

To support this transition, we've outlined a detailed implementation plan that includes:

- A timeline with key milestones and checkpoints to help licensees gain access to Metrc.
- Recommendations for your first few weeks in the system, including suggested trainings and documentation to support onboarding.
- A list of resources available to you as a Metrc user moving forward.

[View Metrc NYS Implementation Plan](#)

This is the first of many communications to help your business prepare as Metrc becomes New York's official seed-to-sale system. Please watch for additional emails and announcements as we reach important milestones.

Updates will also be posted on both the [OCM STS webpage](#) and the [Metrc New York Partner Page](#).

Once registration links are available for upcoming events (both virtual and in-person), they will be shared on both webpages. Metrc will also email invitations directly to administrators of licensed businesses.

If you have any questions, please reach out to STS@ocm.ny.gov.

Thank you,
NYS Office of Cannabis Management
